CAREER OBJECTIVE

Creative and detail-oriented second-year BSc (Hons) Computing student at Itahari International College with a strong passion for frontend development and UI/UX design. Adept at translating design concepts into responsive, user-friendly web interfaces, with a keen eye for aesthetics and usability. Eager to secure a frontend development internship where I can leverage my growing technical skills, contribute to engaging digital experiences, and further develop my expertise in building intuitive, human-centered applications within a dynamic and collaborative team.

EDUCATION

BSc (Hons) Computing

Itahari International College | Expected Graduation: 2027

PROJECTS

E-Commerce Website

Developed a fully responsive e-commerce website using HTML and CSS, featuring a product catalog, interactive shopping cart interface, and intuitive category navigation designed to deliver a seamless, visually engaging online shopping experience with a focus on clean UI layout and cross-browser compatibility.

Python Inventory Management System

Developed a Python-based inventory management system with an interactive terminal menu allowing users to add stock, process sales, record purchases, and generate detailed invoices, streamlining small business operations through a simple, output-driven interface.

Java Gym Management System

Developed a Java-based Gym Management System with an interactive console interface allowing users to add members, register for memberships, track attendance, process payments, and generate member invoices, streamlining gym operations through a structured, menu-driven application.

Waste Free Solution

Developed a full-stack web application using React.js, Next.js, Tailwind CSS, Node.js, REST APIs, PostgreSQL, and MySQL, providing a scalable platform to manage waste reduction initiatives, track recycling activities, and connect users with sustainable disposal solutions.

Evently

Developed a full-stack web application using Java, Jakarta Servlet API, JSP, Tailwind CSS, Maven, and PostgreSQL, providing a centralized platform for campus event management that enables administrators to create and manage events while allowing students to browse, search, and register for events with role-based access control and real-time participation tracking.

SKILLS

Soft Skills: Problem-Solving, Effective Communication, Team Collaboration, Leadership, Adaptability, Time Management

Languages: Python, JavaScript (ES6+), Java

Frontend: React.js, HTML, Tailwind CSS

Backend: Node.js, Express.js, REST APIs

Databases: MySQL

AI / ML: Scikit-learn, TensorFlow, Pandas, NumPy
